## RESUMEN DEL PROYECTO

**Objective:** The project aims to bring a new educational methodology to children in situations of disadvantage, bringing together different fields of knowledge, namely creativity, multiple intelligences and 3D technology.

**Expected results and dissemination:** A psychological and pedagogical approach that combines qualitative and quantitative methodology, and satisfaction and skills questionnaires are the main methods for evaluating project results. All materials are developed, as all project results will be available in the developing intellectual production, the *Dream Makers Manual*.
