Tricity metropolitan area
Gdańsk / Sopot / Gdynia

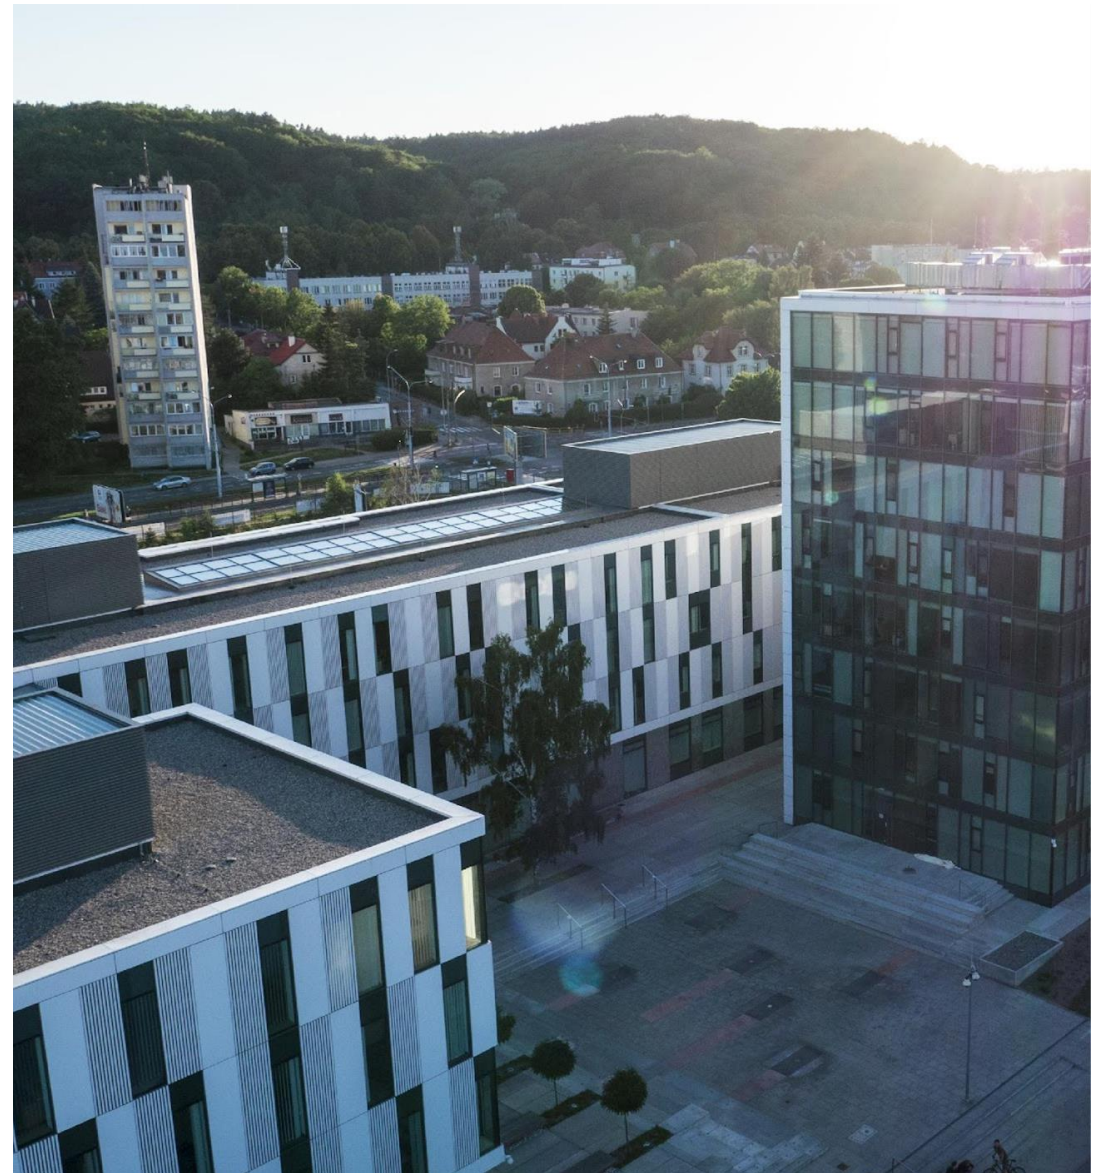

Baltic Campus of the University of Gdańsk

Welcome to the largest and modern campus in the region encompassing 8 faculties, Rector's Office and the Main Library, located in the proximity to 3 Gdańsk major business hubs hosting many international corporations.

Faculty of Law & Administration

Faculty of Languages

Rector's Office

The authorities of the University of Gdańsk

Rector UG
Professor Piotr Stepnowski

Faculty of Chemistry

Chemist, specialising in environmental research. He was a representative of the Republic of Poland in the Joint Programming Research team of the European Union (2010-2012), and currently holds positions in scientific and expert bodies - among others: Vice-Chairman of the Committee of Analytical Chemistry of the Polish Academy of Sciences, Vice-President of the Division Green Chemistry EuCheMS, correspondence member of the Polish Academy of Sciences, the Polish Chemical Society and the Society of Environmental Toxicology and Chemistry SETAC. He serves on the Awards Panel of the Minister of Science and Higher Education. As Rector, he directs the University's activities and represents it externally

Vice-Rector for International Cooperation
Professor Anna Jurkowska-Zeidler

Faculty of Law and Administration

Lawyer, specialist in financial law, in particular financial market security issues in the area of private as well as public law. She has served as an expert for the European Commission, the Financial Supervision Commission and the Financial Ombudsman. As Vice-Rector, she is responsible for initiating, monitoring and advising on scientific and project-based international cooperation.

Vice-Rector for Research
Professor Wiesław Laskowski

Faculty of Mathematics, Physics and Informatics

Theoretical physicist, specialist in issues related to quantum mechanics, in particular quantum entanglement theory. Managed numerous research projects of the National Science Centre (programmes: Sonata Bis, Harmonia) and the Foundation for Polish Science (Columbus programme), as well as an international project in a joint programme of the National Science Centre and the Deutsche Forschungsgemeinschaft (Beethoven). Since 2020, he chairs the Council of the National Centre for Quantum Informatics.

As Vice-Rector, he is responsible for the coordination and supervision of research work, including the maintenance and development of faculty research potential within the various scientific disciplines and the implementation of research projects.

Vice-Rector for Student Affairs and Education Quality
Professor Arnold Kłonczyński

Faculty of History

Historian, specialising in Swedish history in the 20th century, Polish-Swedish relations and the history of the Polish community in Scandinavia in the 20th century, as well as Polish and Scandinavian didactics of history and social studies. Member of many organisations and councils related to teaching and research activities, e.g.: Polish-Scandinavian Institute (Copenhagen), Baltic Institute, Kashubian Institute.

As Vice-Rector, he is responsible for matters concerning students and doctoral students of the University of Gdańsk and for matters of education in degree programmes, postgraduate programmes and courses and training provided at the University's organisational units.

Vice-Rector for Cooperation and Development
Professor Sylwia Mrozowska

Faculty of Social Sciences

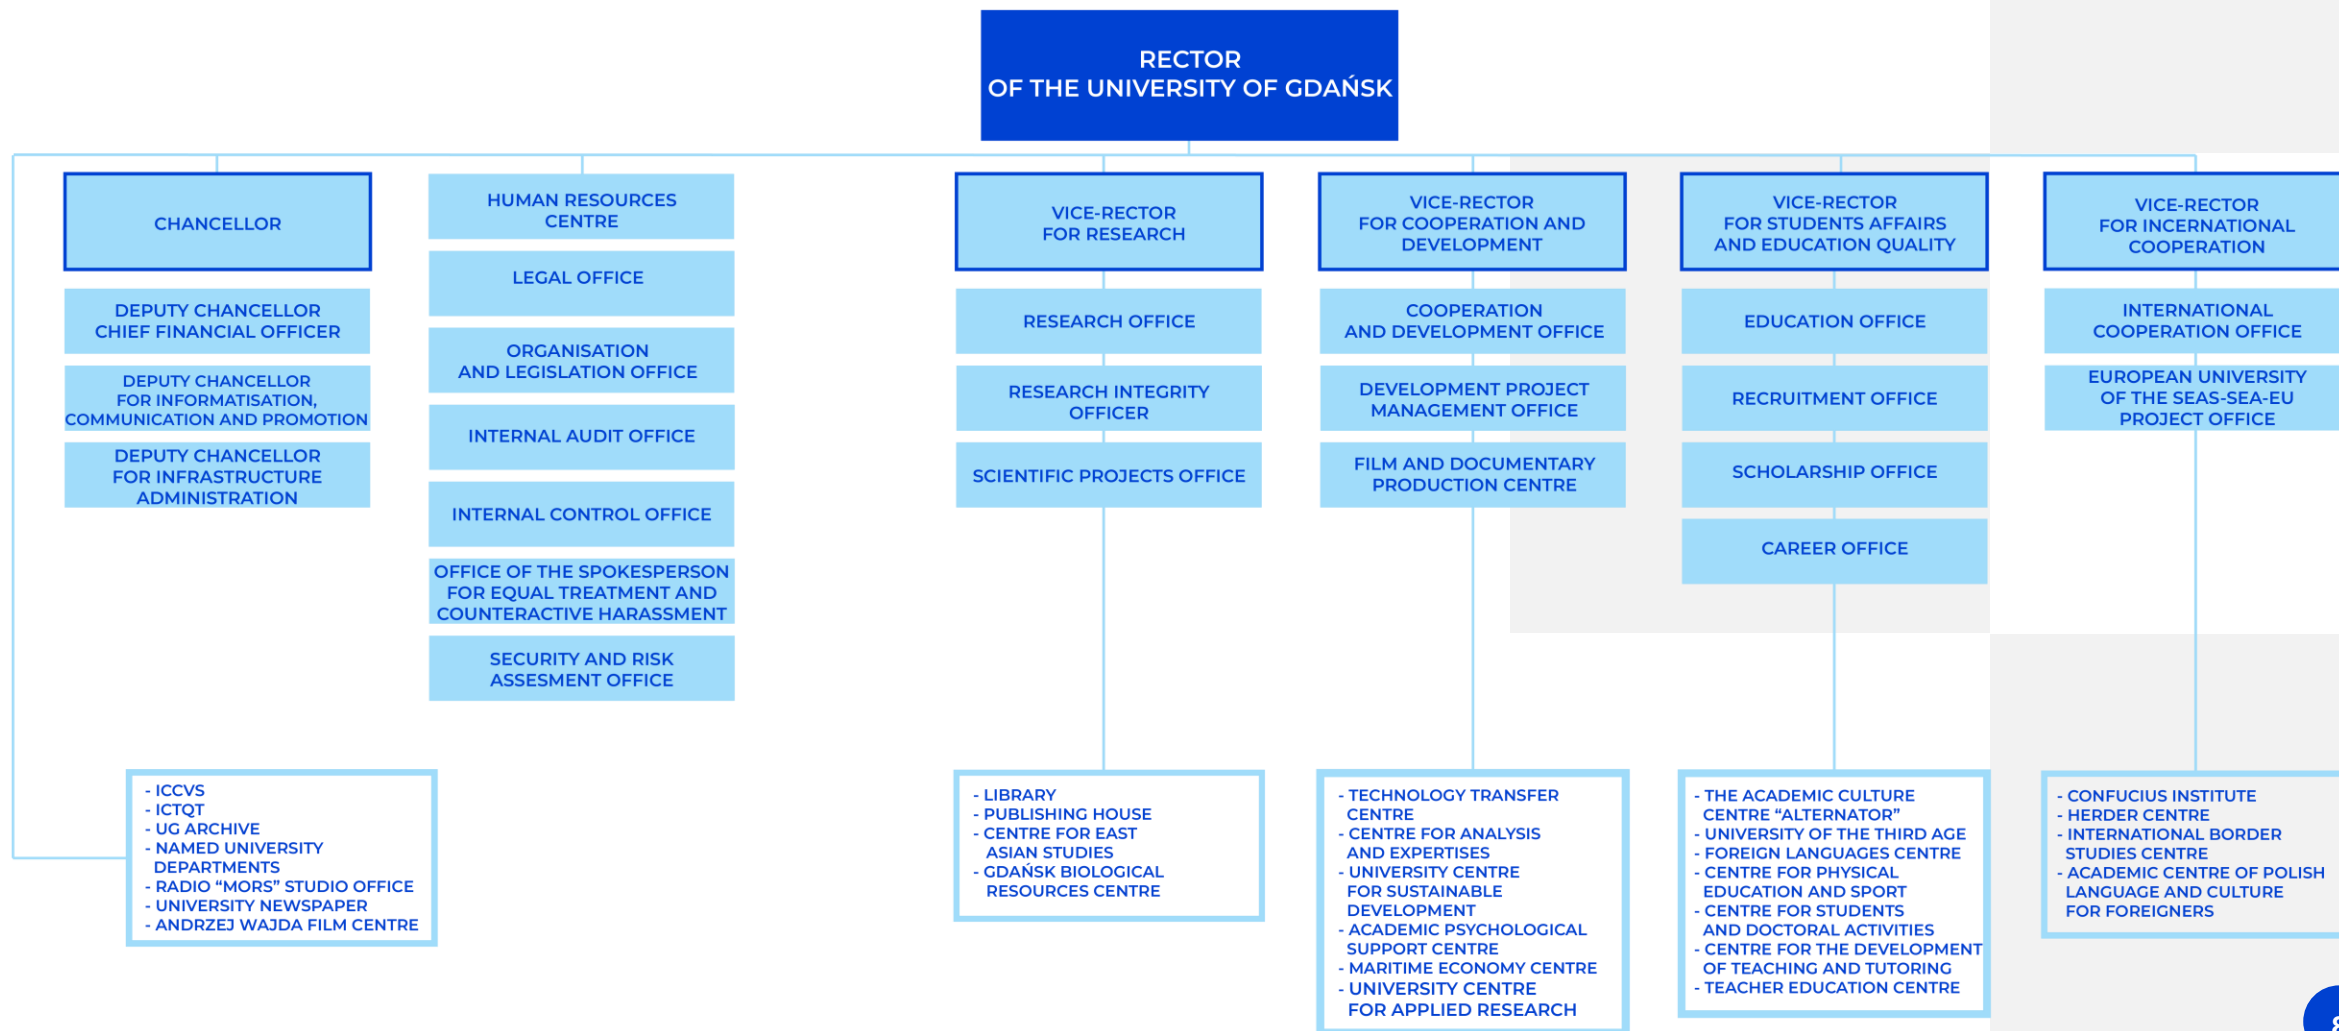

Political scientist with research interests in European integration, political theory, public participation (especially participatory technology assessment) and energy policy. Organised and led as Director of the Centre for Sustainable Development at the University of Gdańsk.

As Vice-Rector, she is responsible for matters relating to the implementation of the adopted and initiating new directions of development of the University and supporting the commercialisation of research results of the University of Gdańsk.

of Gdańsk**

International cooperation

- Created within the framework of the Excellence Initiative "Research University at the University of Gdańsk",
- Co-financing of medium (5-12 weeks) and short-term (2-4 weeks) visits of outstanding scientists from abroad,
- The aim is to build a basis for international cooperation, such as joint publications, research, academic exchange, as well as the improving the language skills and exchange of good practices.

**Visiting Professors
Programme UG**

International cooperation

Polish-Ukrainian scientific programme

The programme was established as part of the Excellence Initiative “Research University at the University of Gdańsk”. The aim of the programme is to finance the implementation of short visits by researchers from Ukraine with a view to internationalizing scientific research conducted at the University of Gdańsk. The University of Gdańsk provides Beneficiaries with accommodation as well as workplace and work equipment.

The University of Gdańsk maritime face

The University of Gdańsk pays close attention to research into marine and maritime studies.

By fulfilling its motto '**In mari via tua**' (The sea is your way), the University of Gdańsk strives towards the development of the Pomeranian region, whose greatest asset is indeed the sea.

One of its great initiatives is the National Centre for Baltic Research, which brings together local authorities and Pomeranian academic institutions to achieve the goals of Polish maritime policy.
