Grant calculation example:

- A student arrives and registers on the 10 of **February 2025**.
- A student's departure is on the 25 of **June 2025**.
- Period of stay: 10/02/2025 – 25/06/2025.
Total: 136 days.
- 1 month– 30 days. Therefore $136/30=4$ months and 16 days.
- 4 months: $850*4$ months + $850/30*16$ days = **3853 euro**.
- + **Travel Grant (180, 275, 360, 530, 820, 1500)**
- ***Specific additional grant for inclusión: 250 euros/month**

Grant calculation example:

- The student might arrive after the 10/02/2025 and leave the UCA before 25/05/2025:
 - If he/she has taken his/her final exams.
 - If he/she informed the International Office and his/her academic coordinator.
- The amount of the grant will be proportionally reduced:
For example, date of arrival: 14/02/2025; date of departure: 21/06/2025. Total granted days: 4 months and 8 days.
 $850 \text{ euros} * 4 + 850 \text{ euros} / 30 \text{ days} * 8 \text{ days} = 3\,627 \text{ euros}.$

Frequently asked questions

1. **Extention of stay:**

Only for the students of the 1st semester. For the second semester.

With a grant: You must be nominated again by your Home University.

The total period of Erasmus+ participation cannot exceed 12 months as Degree/Master or PhD student.

Without any grant: It is possible if your home university and your UCA's academic coordinator agree, but only from the first semester to the second.

2. **You can't** choose annual courses if you only came for one semester.
