,BLENDED INTENSIVE PROGRAMME (BIP) UG

UniVision 2026 – A shared vision for the future of education

UniVision 2026 is a space where educational visions from different countries meet to create a shared future — open, modern, and based on collaboration.

The aim of the UniVision 2026 programme is to strengthen international academic cooperation through the development of didactic, project-based, and intercultural competences among university lecturers.

During the event, participants will work on creating concepts for joint courses, programmes, and educational initiatives using innovative methods (e.g., design thinking), modern digital tools (Miro, Notion, Trello), and knowledge of intercultural collaboration.

Mentoring support and sessions dedicated to writing mini project proposals and presenting educational concepts are also planned.

Physical mobility – University of Gdańsk, Poland:

26.01.2026–31.01.2026

Virtual mobility :19.01.2026–23.01.2026

Partner universities

- “Angel Kanchev” University of Ruse, Bulgaria
